

EVA Traction Material

Create your own custom pad shapes and designs.

Create a custom pad using our EVA traction material. NSI's EVA is formulated to be UV resistant and is available in a wide variety of colors. Don't compromise comfort and traction by settling with stiff molded EVA foam often pre-installed on boards at the factory. Our traction material comes in Flat Brush, Long Diamond, Short Diamond, and Waffle.

Waffle

Waffle Traction Material is 1/4" thick and features 1/10" deep milled grooves that intersect creating a 3/8" wide waffle pattern. This material is perfect for use on kiteboards, skim boards, surf traction, SUP Surfing Pads, fishing platforms or any other application that requires multi-directional grip.

Available Colors: Black, White, Gray, Blue, Green, Red, Yellow, Purple, Orange, Pink, Blue Marble, Red Camo, Lime Green Camo, Rasta Camo, Green Camo, Snow Camo
