### General Specs:

- Unique designs and clear transparent rail strips, with silver RSPro logo at the side, for a perfect match to any board colors. Tatau design has a black RSPro logo cleverly incorporated into the pattern.
- All styles come with 2 strips of RSPro exclusive semi-rigid 380 micron PVC lenticular pattern surfaced material, which delivers high impact and abrasion resistance, while adding minimum weight. The lenticular patterns surface also facilitates adaptation to difficult areas and easy installation
- UV resistant and perfectly crystalline adhesive.

### Clear RSPro

The original Clear Rail Saver. Transparent rail protection for crystal clear board color!

Protect the edge of your paddle blade, and forget about scratches and nicks. Just enjoy!

- Standard sized transparent rail protection
- 2 strips
- 191cm (6' 3") x 6.3 cm (2.5") semi-rigid 380 micron PVC lenticular patterned material.

MSRP: \$49.99

### Clear Jumbo RSPro

Optimized size for big boards: touring, racing, rescue, downwind, all around.

- Specifically designed for larger boards with thicker rails. Perfect for boards longer than 11'
- 2 strips
- 210cm (6'11") x 8.9cm (3.5") semi-rigid 380 micron PVC lenticular patterned material.

MSRP: \$59.99

### Xtreme RSPro

Premium-quality transparent rail protection for shorter SUP surfboards.

- Designed for SUP surf boards shorter than 8'
- 2 strips
- 150cm (5') x 5cm (2") semi-rigid 380 micron PVC lenticular patterned material.
- Asymmetrical cut provides the option to use 2 sets to cover twice the length if desired.

MSRP: \$43.99

## Space Camo RSPro

Galactic, spaced out, graphic camo will light up your board!

- Brand new 2017 Space Camo design, with a clear, transparent base to match any board color.
- 191cm (6'3") x 6.3cm (2"1/2) semi-rigid 380 micron PVC lenticular patterned surface

MSRP: \$59.99

## Stripes RSPro

Streamlined striped design - guaranteed to impress!

- Streamlined stripes design at the tip and flat color (white, black, red, yellow) or transparent (clear) on the rest of the body.
- 191cm (6'3") x 6.3cm (2.5") semi-rigid 380 micron PVC lenticular patterned material.
- 2 strips
- Colors: White/Black, Black/White, Red Black, Yellow Black

MSRP: \$56.99

## Tatau RSPro

The South Pacific is not only where surf and other gliding sports originated, the Polynesian word tatau is also the origin of the modern tattoo. Introducing RSPro Tattoo pattern SUP board rail protection!

- Brand new 2017 Tattoo design, with a clear, transparent base to match any board color.
- 191cm (6'3") x 6.3cm (2.5") semi-rigid 380 micron PVC lenticular pattern material.
- 2 strips

MSRP: \$59.99

## Camo RSPro

Camo design integrates perfectly with any color stand up paddleboard!

- Translucent traditional camouflage design through the entire length of the protective tape.
- 191cm (6'3") x 6.3cm (2.5") semi-rigid 380 micron PVC lenticular patterned material.
- 2 strips

MSRP: \$61.99

## RSPro Surf

Same high quality, technology and manufacturing process as SUP Rail Savers – just slightly thinner, narrower and shorter.

Delicate surfboard rails are subject to scratches, nicks, and scuffs when transporting, getting ready in a parking lot, or storing for the winter. Surf RSPro rail protection is designed to fit low profile rails on your surfboard or kiteboard. RSPro adds that extra layer of defense against scratching and small impacts.

- Protect fragile rails on short boards, fun boards or long boards, especially from out of the water scratches and impacts. Just surf!
- Keep your board looking new - Higher board resale value
- Technical looking, clear matte finish
- High impact and abrasion resistance with minimum weight and zero drag
- Optimized size for any board
- Super-easy installation
- Won't yellow over time. Will last longer than your board.

### Specs

- Transparent matte with small watermarked RSPro logo at the center for a perfect match to any board color.
- 150cm (5') x 3.2cm (1.25"), semi-rigid 200 microns PVC lenticular patterned material.
- 2 strips
- UV resistant and perfectly crystalline adhesive

MSRP: \$29.99

## RSPro Paddle Edge Saver (2pcs)

Protect the edge of your paddle blade, and forget about scratches and nicks. Just enjoy!

- Protection from scratches and nicks for the edge of your carbon paddle blade.
- Pack of 2 RSPro Edge Savers for 2 paddle blades. Also great for kayak paddles, 2 SUP paddles or as a spare.
- Keep your paddle blade new and safe. Higher resale value.
- High Impact and abrasion resistance with minimum weight.
- Optimized size for any paddle on the market.
- Super-easy installation. Precut and allows repositioning while installing.
- Won't yellow over time.
- Does not affect water flow.

### Standard Size Specs:

- Available in three colors: white, orange or yellow at the edge and transparent at the blade.
- 60cm (2') x 1.8cm (0.7") elastic 300 micron PU for high impact and abrasion resistance with the minimum weight
- Color in the center (pick your color), with the RSPro logo at each side, and transparent at the blade.
- UV resistant with perfectly crystalline adhesive.
- Precut for super easy, fast, and reliable installation.

MSRP: \$29.99

### Jumbo Edge Saver Specs:

- 90cm (3') x 1.8cm (0.7") elastic 300 micron PU for high impact and abrasion resistance with the minimum weight
- White at the center, with the RSPro logo at each side, and transparent at the blade

MSRP: \$32.99

## RSPro Hexa Paddle Grip

Completely new, ultra light and ultra thin Paddle Grip with HexaTraction® technology

Increased Grip in only 4 Grams

- Improve the grip of your paddle, avoiding wax, sprays, tennis tape and other messy odd jobs.
- Ultra light: 4 grams (Black); 6 grams (Yellow).
- Improve your reach by having a constant reference for hand placing.
- Choose Yellow Fluorescent color option to easily spot your paddle.
- Single measure to fit most paddles in the market.
- Easy to install auto-adhesive technology.
- Design and manufactured in Barcelona

### Specs:

28cmx10cm (11"x3.9"). 4-6 grams.

Ultra thin HexaTraction® technology on a super thin layer.

Adhesive backing.

MSRP: \$24.95

# HexaTraction

**RSPro** has stepped up their line of skillfully engineered SUP and surf products to include HexaTraction - a clear non-skid alternative to wax. **HexaTraction** can be adapted to any stand up paddleboard, shortboard, longboard, or kiteboard. Quick and easy installation using the template included with each kit. **HexaTraction** is waterproof and helps protect boards from UV exposure. Whether you surf or race - this lightweight traction gets the job done without wax.

- Temperature independent grip & traction
- Light, thin, and doesn't absorb water
- No melting, no hassle, no residues, no contamination
- Super-easy to install modular configuration
- Transparent, so it doesn't cover your board graphics
- UV protection and waterproofing for your board deck
- Automotive, RSPro® quality
- Non-Aggressive to your skin
- Designed and Manufactured in Barcelona, Spain

MSRP: \$64.99
